Amendments to the Specification

Please replace paragraph [0016] with the following amended paragraph:

[0016] Another aspect of embodiments of the present invention provides an ATV that includes a frame and at least three wheels suspended from the frame. At least one of the three wheels is a front wheel and at least one of which is a rear wheel. Each of the wheels includes an ATV-type tire, i.e. a low-pressure balloon tire having an air pressure of less than 1 kg/cm². The front wheel defines a front axis and the rear wheel defines a rear axis; the front axis and the rear axis define a wheelbase of greater than 52 inches. The ATV also includes a power unit for driving at least one of the wheels disposed on the frame and a straddle-type seat including a main seat portion for a driver and a secondary seat portion, rearward of the main portion, for a passenger. The ATV also includes a steering member (which may include handle bars) for steering at least one of the wheels.
